10 September 2007

To the Youth Musicians of Clark County:

Do you desire to be the ultimate student musician? Have you ever felt like your music has more to say? Ever think about the potential you possess and how musicians experienced on your instrument could help to harvest this potential?

With your musical growth in mind we are excited to announce the *Las Vegas Youth Wind Orchestra*. This unique, innovative ensemble is for wind and percussion students who want to enrich their musicality through performing the ultimate in wind literature. This audition-only ensemble will combine the most talented instrumentalists from, in, and around the Las Vegas area.

As a member of the *Las Vegas Youth Wind Orchestra*, you will receive personal instruction by highly experienced and professional music educators that know how to get the most out of your instrument. Upon a successful inaugural concert season, the possibility for touring will be seriously considered.

You will also perform under conductors that, with their multiple years of teaching high school, honor bands, and collegiate wind ensembles, have achieved the highest level of musicality with wind band students.

“The Exceptional Wind Literature Experience For The Ultimate Student Musician” serves as the theme for the *Las Vegas Youth Wind Orchestra*. If you see yourself as the consummate student musician then sign up with us today. Our schedule and other pertinent information is included with this letter.

Sincerely,

Thomas G. Leslie
Co-founder and Conductor
